

**FOR IMMEDIATE RELEASE**

## **EES Wins FCC Network Security Contract**

**GERMANTOWN, MD – November 7, 2012** - Energy Enterprise Solutions (EES), LLC partnered with Lunarline, Blue Glacier, and SpyderTech have won the recent Federal Communications Commission Network Security Operations Center (NSOC) Support Services Program under the U.S. General Services Administration (GSA) Alliant Small Business Government-wide Acquisition Contract (GWAC). Under this effort, the EES Team will support the FCC's Network Security Operations Center providing management, network security monitoring, and other cyber security services.

“We are excited about the opportunity to serve the FCC on this critical infrastructure security program,” said EES President, William Teel, Jr. “Defending critical network and information assets from sophisticated cyber threats is vital to the mission of Federal agencies. We are proud to lead our team of cyber security experts in support of the FCC NSOC. This strategic award validates our security service experience and our ability to meet the challenges of the FCC.”

### **About Energy Enterprise Solutions, LLC**

EES is a leading systems engineering and security services provider to the US Federal Government. Established in September 2004 as a small business joint venture, EES was formed by an SBA-approved 8(a) Mentor-Protégé agreement between 1 Source Consulting, Inc. and RHRT Holdings, Inc. Since that time, we have grown rapidly into a leading professional services contractor. Working collaboratively with our Federal clients, EES supports the implementation of integrated enterprise-wide operations and capabilities. We provide a broad range of successful performance-based support in program management and control, IT infrastructure and operations, IT management, cyber security, and systems development and engineering across geographically dispersed projects and tasks.
