EES Wins Treasury IT Contract with Tax and Trade Bureau

GERMANTOWN, MD – February 2013 - Energy Enterprise Solutions (EES), LLC partnered with Trowbridge & Trowbridge (T&T) won the recent U.S. Department of the Treasury's Alcohol and Tobacco Tax and Trade Bureau (TTB) contract to provide information technology and software support services.

“This is a tremendous opportunity to support the critical mission of TTB,” said EES President, William Teel, Jr. “Serving the TTB’s leading edge implementation of BYOD, their IT infrastructure, and the unique applications vital to their work, is an honor and privilege for our company. We are proud to lead our team of experts in service to the Department of Treasury. This strategic award validates our leading edge IT experience and our ability to meet the challenges of the TTB.”

EES is a leading information technology, systems engineering, and security services provider to the U.S. Federal Government. Established in September 2004 as a small business joint venture, EES was formed by an SBA-approved 8(a) Mentor-Protégé agreement between 1 Source Consulting, Inc. and RHRT Holdings, Inc. Since that time, we have grown rapidly into a leading professional services contractor. Working collaboratively with our Federal clients, EES supports the implementation of integrated enterprise-wide operations and capabilities and provides a broad range of performance-based support in program management and control, IT infrastructure and operations, IT management, cyber security, and systems development and engineering across geographically dispersed projects and tasks.
